

POLKASOUND PRODUCTIONS

OLD GERMAN CONCERTINA VIRTUAL INSTRUMENT

Thank you for downloading the free *Old German Concertina* virtual instrument!

Installation: Put the Old German Concertina folder wherever you typically store your Kontakt instruments on your computer. If you plan on downloading more than one of our instruments, I recommend making a "Polkasound Productions" folder exclusively for them. For example:

- 📁 Hard Drive (C:)
 - 📁 My Kontakt Instruments
 - 📁 Polkasound Productions
 - 📁 Old German Concertina
 - 📄 Old German Concertina.nkc
 - 📄 Old German Concertina.nki
 - 📄 Old German Concertina.nkr

To play the instrument in Kontakt, on the left side of the Kontakt window, select the Files tab. Then navigate to the Old German Concertina folder. Open the .nki file inside that folder.

Have fun!

-Tom Brusky

NOTE: These instructions will suffice for anyone familiar with using Kontakt. *If you do not know how to use Kontakt, please do not contact me for assistance!* Consult your Kontakt users manual. I provide customer service only for the instruments themselves. Thank you.
